ABOUT

I'm a motivated individual who thrives on taking responsibility and building things from the ground up. For me, design is about crafting something with love, focus, and intention something that not only looks good but truly works for people.

EXPERIENCE

D. E. Shaw India - Summer Intern

UX Design Intern at D. E. Shaw (June - July 2026)

- Designed an alerting component for a bond trading tool, built as plug-and-play infrastructure intended to scale across other internal tools
- Alongside worked on the revamp of an internal CRM used by traders and portfolio managers to track intel and potential partners.
- Explored use of agent windows for ui creation and made an ai widget library for custom widget generation

Vikasya Ai

Product Designer | (July 2025 - Jan 2026)

- Designed admin dashboards and website for platform operations and brand presence.
- Worked on end-to-end product design for an Faithtech platform, covering both customer app and Admin dashboard.
- Collaborated with tech teams to ensure accurate design implementation via clear documentation and handoff.

Pravisht Digital

Graphic Design Intern | (May 2025 - June 2025)

- Designed and managed social media creatives for LinkedIn & Instagram, boosting brand engagement and visibility.
- Produced high-quality posts showcasing client industries and services, establishing a consistent and professional online identity.

PROJECTS

BudgetBuddy-Personal Expense Tracker | UX Case Study (Mar 2025- April 2025)

- The Designed a personal finance app case study to streamline expense tracking and budgeting.
- Conducted user research, developed wireframes and prototypes in Figma, and focused on visual clarity and customizable features to improve user engagement and financial awareness.

IRCTC Website Redesign | UI/UX Design Case (April 2024- June 2024)

- Worked on the redesign of the IRCTC website to enhance information architecture, accessibility, and user experience.
